GROWING INTO A GIANT.

The Canada Annexation Scheme is Gaining Force and Alarming the Loyal Canadians.

MONTREAL, Can., Dec. 14.—The publication here of the resolution introduced by Mr. Butterworth has had a startling effect. Everybody is discussing it and looking forward anxious as to what course the senate and house of representatives will pursue.

"The mask is off at last," said Mr. Taillon, a conservative leader in the provincial parliament. "We have held all along that commercial union was disguised annexation, and here now is Butterworth, a most pronounced advocate of the former policy, coming out boldly for annexation. The loyal Canadians will have to kill the pigmy soon, as it is fast growing into a giant."

TORONTO, Ont., Dec. 14.—Commenting on the Butterworth resolution, the *Empire*, the leading government organ, calls it an insulting overture, and says it is the leaders of the Canadian opposition, who have, by their words of sympathy, invited this insult to their country.

The *Globe* (an opposition paper) says: "One thing can be said for Mr. Butterworth's curious proposal, its adoption by congress would probably lead to a thorough exposition and understanding of the Canadian opinion as to the project of political union with the United States. We have no doubt that the judgment of Canadians in the matter would be such as to cure our neighbors of the delusion that has long kept them from trying to make the best of the possible political separation of the two countries.

NEW YORK, Dec. 14.—The *Evening Post* contains the following: "The Canada annexation resolutions, introduced in congress by Benjamin Butterworth, of Ohio, have greatly moved the Canadians both in the United States and across the St. Lawrence. Erastus Wiman said to-day to a reporter, who asked him what he thought of Mr. Butterworth's scheme: 'I'm knocked between the eyes. I never saw such a fatal mistake. I cannot conceive how Butterworth came to do it. The idea I have is that here never was so contented a people as the Canadian? I am very much disturbed at Mr. Butterworth's move. He says there are two parties to every bargain. In this case there may happen to be three, viz: The United States, Canada and England. If two out of three parties are unwilling to trade, a trade is impossible. There has not been the slightest sign on the part of these two for political union. Until there is such a sign it is submitted that an invitation given and rejected would do more harm than good."

A FATAL FALL.

Several Men Killed by the Falling of a Scaffold.

STEVENS POINT, Wis., Dec. 14.—About 9 o'clock, this forenoon, ten men were at work on the inside of the waterworks stand pipe upon scaffolding nearly ninety feet from the foundation. Suddenly one side of the scaffolding gave way, throwing five men to the stone bottom.

The killed are: Charles Myers, of this city; Harry Silis, of Chicago; Al. Albus and Jack Ainsworth, whose homes are in the east The injured man is John Smith, also a stranger here.

PITTSBURG, Dec. 14.—David A. Stewart, chairman and treasurer of Carnegie, Phipps & Co., and president of the Pittsburg locomotive works, was found dead in bed this morning, at his home in the east end. The deceased was about fifty years of age and was apparently in good health when he retired last night.

Also proposed that these states shall be admitted by one bill. Utah, although not mentioned in the resolution, was agreed should be admitted into the union, but by a separate

The President Indignant at the Attorney's Course in Resigning Now.

WASHINGTON, Dec. 14.—Attorney General Garland yesterday received a telegram from United States District Attorney Sellers, at Indianapolis, declining to withdraw his resignation and insisting on its acceptance. It is said that the president and attorney general are very much dissatisfied with Mr. Sellers' course in relinquishing his office just at this time when so many important matters are pending in his office and it is intimated that he may be dismissed instead of being allowed to resign.

Bernhamer Saves a Thousand Dollars.

INDIANAPOLIS, Ind., Dec. 14.—The laundry department of the state's hotel, at Michigan City, will not be deprived of an ornament in the person of Mr. Bernhamer until the 3rd day of February. Bernhamer's term expires on the third day of the new year, but there is hanging over him a fine of $1,000 and the costs of the trial, amounting to perhaps another thousand. These he must either pay or work out. The federal law makes it as easy for a prisoner to pay a million dollar fine as a four dollar one. Whatever the fine it may be boarded out in thirty days. It is not believed that Mr. Bernhamer's stay in prison has so changed his nature that he would rather pay cash to the amount of $1,000 than to wear stripes a month.

Indictments Found Against Indiana White Caps.

INDIANAPOLIS, Dec. 14.—The governor has received letters from the state's attorneys who are prosecuting the White Caps in southern Indiana, in which they report that they have succeeded in procuring four indictments, two of which are on the charge of attempted murder. There are eleven defendants. The attorneys think that they are certain to convict at least seven or eight of the indicted men.

Will Appeal to the Supreme Court.

INDIANAPOLIS, Ind., Dec. 14.—Lieutenant Governor Robertson, of Fort Wayne, yesterday said, in reference to his damage suit against Green Smith, which was decided in favor of the defendant, that he will appeal to the supreme court. He has no fault to find with the lower court's decision, as it is in accordance with a precedent established by the supreme court. He is confident, however, of winning the suit in the higher court.

The New Bishop of Milwaukee.

LANCASTER, Pa., Dec. 14.—Rev. Cyrus F. Knight, D. D., D. C. L., rector of St. James Episcopal parish, this city, received official announcement of his election as bishop of the Milwaukee diocese, as the successor of Bishop Wells. A BOSTON FIRE!

An Immense Block in That City, With a Collection of War Relics, is Destroyed.

BOSTON, Dec. 14.—Shortly after two o'clock this morning, the Everett block, in Hyde Park, a large stone front building, was discovered to be on fire. The fire started in the Boston Cash market in the basement and spread quickly to the upper stories. The firemen were hampered in their work by the frozen condition of the hydrants and the fire obtained considerable headway before any water had been thrown. On the third floor was the town hall, in which was a valuable collection of war relics and oil portraits, and in a room adjoining a Grand Army fair was being held and many relics, etc., was also gathered there, numbering over 2,000 articles.

All these were destroyed, together with all the booths and fancy articles connected with the fair. The Everett block was completely burned out and will be a total loss. It is owned by A. A. Holway, and valued at $50,000. The insurance is unknown. The war relics and oil paintings destroyed are believed to be worth $125,000.

Manley states that he does not believe General Harrison has tendered the position to Mr. Blaine, although he has always believed that it should be tendered and that Mr. Blaine would accept.

"Old Hutch" Seriously Ill.

CHICAGO, Ill., Dec. 14.—For a number of years B. F. Hutchinson, familiarly known as "Old Hutch," has been a daily visitor on the board of trade, and his absence to-day caused considerable comment. A statement made by his broker was to the effect that the man who manipulated the great wheat corner a few months ago was very seriously ill. The chances are that he will be compelled to leave Chicago when he recovers sufficiently.

The White Traveler.

LONDON, Dec. 14.—In the house of commons this afternoon, Mr. Smith, a government leader, replying to Mr. Wilfred Lawsons, said that so far as was known to the government, the letter written by Osmon Digna, announced the surrender of Emin Pasha and a white traveler. The government has no way of knowing whether these allegations were well founded.

A Grave and Serious Procession.

COLUMBIA CITY, Dec. 24.—Queer coincidences were noted here recently. One of the principal physicians was driving leisurely up the street, while on the sidewalk, going in the same direction, were a grave digger and a minister; following them were the undertaker and a hearse, and bringing up the rear was a tombstone man with a load of tombstones.

The self-binder was first successfully attached to the reaper in 1876. In one year, through its assistance, our wheat crop increased over a million of bushels, and the binder didn't go around bragging about it either. BURGLAR FOILED.

The American Federation.

ST. LOUIS, Dec. 14.—The first work before the American Federation of Labor this morning was the reception of the report of the committee on boycott and labor. The committee recommended several boycotts. The convention then ordered the use of union labels. The report of the committee on constitution was taken up and considered seriatim.

During the debate some serious reflections were cast upon the Knights of Labor, and the assertion was made that the order was rapidly disintegrating. O. R. Lake, representing the International Typographical union, defended the knights and claimed there was no foundation for the statement that the order was dwindling away.

TO ENDOW A SCHOOL.

Isaiah V. Williamson, the bachelor and Quaker many-millionaire, of Philadelphia is to be credited with with one of the grandest benevolent enterprises of modern times. He has determined richly to endow a great industrial training school for boys, where every boy can be taught some trade free of expense. His plans are not yet completed, but it is understood that the new school will be as extensive in its aims and proportions as Girard College, and that the limit Mr. Williamson will place on this gift will be $12,000,000.

Over the whole of Venezuela hangs an impending cloud of revolution and anarchy, casting far in advance shadows of financial and personal uneasiness. Guzman Blanco is away in France, but his spirit is still feared; and the coming presidential election is regarded as a sure signal for disturbance.

As a leading merchant said to me today: "It is not possible to have matters worse—any change will be welcome." Perhaps; but to an American, a change involving bloodshed, general anarchy, and years of national retrogression, would be worth avoiding at any sacrifice. What I said in these columns last year has come true, and it is a sad thing for Venezuela that Guzman Blanco's tired hands have laid down the reins of State.

Government House, the official residence of the President, faces a little square; a commodious building of white stone, where I was presented to His Excellency, President Jose M. Ernazabel, who rules the great State of Bolivar, which is composed of the smaller ones—Apure and Guyana. He is a courteous gentleman of liberal education and high appreciation of his country's value, holding a position similar to our State Governors, except that he is directly and personally responsible to the Central Government at Caracas for his administration. — *Dr. Wm. F. Hutchinson, in the American Magazine.*

A BAD ANARCHIST.

He Threatens to Kill His Wife and Would Give Up His Life to Bring About the Death of Chicago Officials.

CHICAGO, Dec. 14.—Frederick Maisch was arraigned in police court this morning on complaint of his wife. He was in the habit of spending his nights at anarchist meetings and had threatened to kill her, and said he would give up his life to compass the deaths of Police Inspector Bonfield, and Judges Gary and Grinnell. He was held in bonds to keep the peace.

HOW THE INVALID LOOKS AT THINGS.

The invalid, like the poet, and like all acute, sensitive beings, is remarkable not for seeing differently, but for seeing more than do the rest of the world. He endows everything about him with personality. Cold, hard substances are his avowed enemies. The soft, the yielding, the woolly, fill him with gratitude and delight. The arm-chair invites and embraces him. The tiny teapot and ewer are eager to do him service, and the gruel bowl displays a fairly maternal solicitude. His cane is a Fidus Achates, his pet pillow a Nancy, or whatever his childhood's nurse was named. As to the bottles arranged on his table, only the doctors who prescribed them can surpass their marked and individual interest in their charge. A glow of genuine affection fills me when I glance at Tonic, so many times has he proved worthy of the confidence reposed in him when the "lamp of life burned low." Liniment's unctuous sides are nearly bursting with officious good-nature. Fine old bourbon has an irressistible bacchanalian leer. Stout Camphor needs only spectacles and a bag to make an old fogy of him. Sly little Morphine, hiding behind the rest, has a sinister, suggestive, Mephistophelian look, which at once attracts and repels.—*A. B. Ward, in Harper's Magazine.*

THE WHITE CAPS.

Their Missives Appear in Fort Wayne.

The White Caps seem to have become epidemic, or ubiquitous. We hear of them all over the country, but did not think they would commence operations in this vicinity so soon. But O. L. Perry, manager of the Western Union telegraph office, in this city, has received several missives signed "Captain of the White Caps," warning him that he would be attended to as an agent of monopoly. These White Caps, judging from their record, are very vicious devils. They whip, torture and sometimes kill. They wear white caps, and of course they wear clothes, but their clothes are not said to be of the latest style of garmental architecture. Nevertheless, if any man or boy who reads this wants to get a garment or a suit of fine fashionable clothing or a tip-top overcoat to shield him from winter's chilling blasts, just let that man or boy supply himself with a little ready cash and step into the clothing emporium of Original Pete, 52½ Calhoun street, opposite the court house, and you bet your life he will be suited in short time, and at very reasonable rates.

A Universal Remedy

...has been discovered; but, as at least ninety-nine hundredths of human diseases have their origin in Impure Blood, a medicine which restores that fluid from a diseased to a healthy condition comes as near being a universal cure as any that can be produced. Ayer's Sarsaparilla purifies the blood in each stage of its circulation, and is, therefore, adapted to a greater variety of complaints than any other known medicine.

Boils and Carbuncles,

...after only ordinary treatment, yield to Ayer's Sarsaparilla after a comparatively brief trial.

Mr. C. K. Marray, of Charlottesville, Va., writes that for years he was afflicted with boils which caused him much suffering. These were succeeded by carbuncles, of which he had several at one time. He then began the use of Ayer's Sarsaparilla, and after taking three bottles, the carbuncles disappeared, and for six years he has not had even a pimple.

That insidious disease, Scrofula, is the fruitful cause of innumerable complaints, Consumption being only one of many equally fatal. Eruptions, ulcers, sore eyes, glandular swellings, weak and wasted muscles, a capricious appetite, and the like, are pretty sure indications of a scrofulous taint in the system. Many otherwise beautiful faces are disfigured by pimples, eruptions, and unsightly blotches, which arise from impure blood, showing the need of Ayer's Sarsaparilla to remedy the evil.

All sufferers from blood disorders should give Ayer's Sarsaparilla a fair trial,—avoiding all powders, ointments, and washes, and especially cheap and worthless compounds, which not only fail to effect a cure, but more frequently aggravate and confirm the diseases they are fraudulently advertised to remedy.

Ayer's Sarsaparilla,

REPRESENTATIVE HOWARD, of Indiana, has introduced a bill to punish bribers and bribe takers at congressional elections by disfranchisement for from six to ten years.

TOM AXWORTHY, the defaulting treasurer of Cleveland, has offered to turn over $160,000 to the city and to repay his bondsmen in two years if permitted to return to the country. Be it ever so humble, etc.

MAYOR O'BRIEN, of Boston, was beaten for a fourth re-election Tuesday. The parochial school scare and the influence of women workers and voters compassed his defeat. Thomas N. Hart will succeed him.

THE White Caps are being heard from in different parts of the country. It is probable that their rumored existence and warnings in many places are nothing more than a hoax, originated by some sensation monger.

IT IS asserted that Brickner and Barwig (democrats), elected to congress from Wisconsin, are ineligible, for the reason that they are not citizens. Both came to this country as minors, and it is claimed that their fathers were never naturalized.

GENERAL HARRISON has written to an English correspondent that relatives, who have studied the matter, claim his family is descended from General Thomas Harrison, an officer in Cromwell's army, but states that he himself has never examined into the evidence.

NEARLY a hundred consuls in Europe have answered the questions sent out by the Ford congressional immigration committee. They agree that we are getting the scum of the population over here, and that ignorance, deceit and steamship owners' greed combine to flood us with this class of people, often in spite of our laws, always to our injury.

GENERAL HARRISON can expect to convict none of the democratic officials of offensive partisanship, since THE SENTINEL made it known yesterday that they have 99,781,930 rods of fence in the state to perch upon. A democrat who can not "get on the fence" under such favorable circumstances ought to be curtailed.

THE governor has issued a certificate giving the names of all the electors voted for at the late election, with the number of votes received by each and announcing which are elected. Four copies of the document are issued. One goes to the United States secretary of state and three to the elected electors, who give one to the federal judge of this district, send one to the president of the senate, and the third by special messenger to the seat of government.

NOT SO BAD AS PAINTED.

If the Pittsburg shops and the Jenney Electric Light works, and two or three other such institutions were to be removed from this city, the people might as well rebuild the old fort, get some buck skin clothes, put on their war paint and go to chopping wood and trapping skunks.—*Daily News.*

THE SENTINEL agrees that it would be a sore calamity for Fort Wayne to lose the great Pittsburg railway shops, or some equally important industry, but it does not agree that such a loss is probable or that it would obliterate the city. Thanks to two or three other industries as great as the shops of the Fort Wayne road and the enterprise, thrift and foresight of the merchant community Fort Wayne has passed the danger line.

Some losses would tend to temporarily check the growth of the city, but none of them can operate as an estoppel, even though a few Fort Wayne editors regale themselves in "buck-skin" thoughts and "coon-skin" longings.

No city in the union rests on a better or healthier basis than Fort Wayne, and no city has done more for her railroad interests. As our railroads prosper, we prosper, but as we prosper the railroads prosper to a corresponding degree, and it is probable that the local trade and passenger traffic will more than equalize with the local favors of the railroads, so that things are equal.

But aside from these comparisons, no city in the world offers to its corporations and manufacturers a better or more conservative class of workmen than does Fort Wayne and certainly no municipality has a greater regard for the mutual interests of both. We have schools and churches, libraries and charities,—banks and savings societies that beget a spirit of home pride and residence—every influence that tends to make a good people, and these facts are more important to capitalists and corporations than most people realize.

The natural position of the city between the great busy centers of the east and west, between the ore and coal mines and the vast forests—all are potent factors in our greatness and will continue so as long as such conditions exist.

THE SENTINEL must give publicity to idle rumors in the way of news, but nothing can shake its faith in the growth and prosperity of Fort Wayne, and feeling this way it has no sympathy with the chronic grumblers who see disaster in every change of the moon and calamity in every puff of the night wind.

GAY PARIS.

Chancellor Lang Pictures His Trip Through Fertile and Picturesque France—Enjoying Himself.

[Correspondence of THE SENTINEL.]

PARIS, France, Nov. 30, 1888.

Take it not amiss that another letter from me, probably a last from a foreign land, should be sent you so soon after it was my pleasure to write you from Lourdes.

From the place just named we travelled six hours to reach Bordeaux. Our arrival in this city of 500,000 inhabitants was after the gloaming. The gas light is profuse, but no electric lamp illumines the darkened nubial air, and hence one naturally regrets that his entry to this great commercial city is so late after sunset. Electric lamps have not enlightened the people of Bordeaux.

We rest for the night and next morning, at 8:35 o'clock, are off for the metropolis of France. Along the way, which is 358 miles, we see the old style stone houses upon the farm lands, and covered, like those of Belgium, with the durable tile, not so fancy but surely of service. Some of the village houses adown the route are slate roofed, whilst others have the old fashioned shingle board.

In the fields men were plowing and women were herding kine. Not a few indeed were knitting, whilst their sheep fold, and again the cows, were grazing or browsing upon the richly green meadow lands.

Gardens were still in fruition—lettuce, cabbage, the mustard plant, and the little corner, not so small indeed, given to flowers, which were still in full bloom, as at home, in dear America, during September's sunshine days.

And again, irrigation is well managed in France, which to explain would require too much space. And along the mountain streams and the brookside women are seen washing the household goods, which are spread upon the hedge or fruit tree branches under the warm rays of the sun to draw out the little dampness that may remain, quite unlike the clothes line stretched from window to window in the large cities.

From Lourdes to Pau we traveled through romantic mountain, valley and hillside scenery, all of which is under cultivation. From Pau to Bordeaux most of the country is a pine forest devoted to the gathering of turpentine and tar. From Bordeaux to Paris, amid the agricultural products of corn and wheat, and the garden spot already referred to, the traveler sees, no doubt, the best vineyards of France. At any rate he sees here the most extensive and the most richly cultivated wine lands, all clean and thriving as a flower bed, though covering in the aggregate many thousand acres.

Whilst waiting at Bordeaux for the train to start I took occasion to notice that the air brake of the train runs in a curve from under the car to a perendicular height of probably eighteen inches. From the end of this to the end of the iron-inch-and-a-quarter-tube rising in like manner from the other car a rubber hose is attached. There are no buffer couplers, properly so called, at the end of the cars. There is a steel rod about eighteen inches long extending from each corner of the car, which at its end, has a plate-like circular spread ten inches in diameter serving as a bumper. The coupling is by two links, one end of the link thrown onto a hook fastened in a crossbar of the car. The two links are connected by a round bar an inch in diameter which has a thread cut from end to end; the two links each have a swivel so that there is no rigidity about their connection except when both the extreme ends of the links are attached to the two cars and this connecting bar is turned so as to draw, by means of this screw thread, the two cars, closely up to the two bumper-faces. Then, two chains, one on each side of this center coupling, are hooked into each other. Thus are cars coupled in most parts of the continent.

Well, after a ride of nine hours through romantic scenery with landscape of rolling lands in garden, fruit, vintage, flowers, and herding scenes, romantic scenery and usefulness beautifully blended, we finally come into the city of the Napoleons. From the days of the little corporal 'neath whose conquering banner many a good Frenchman fought, even until now the spirit so gigantic in its views, yet so ruefully grasping in its ambitious designs of subjecting and ruling all Europe, even until now the great mind and wonderful genius is felt, not alone in Paris but all through France.

So far as I have been able to study the provinces, there is a growing desire of returning to monarchical government. There is much frivolity and little stability apparently in French republics.

Nearly two million people dwell in Paris. It is a city of broad sidewalks, broad streets, gingantic buildings, and of broad ideas, a city of luxury, a great gathering of a cosmopolitan class of people that makes and unmakes fashions which are followed and dropped by people greater and more ingenious perhaps, except in many things to copy, than those of Paris.

Whilst there is solidity, stability, and grandeur, mingled in the Ville de Paris with luxury and splendor, whether in stores, gardens, buildings, ways of living, etc., there is, nevertheless, just as much to the credit of the city and its inhabitants on the side of the good, [illegible]

day which will bring into check the licentious luxury once so common, and will bring back to better days, to more stable success of government the land dear to the sons of France at home and abroad. Americans who love their country cannot look with nonchalence upon the land that sent to us from the flower of her army her LaFayette, Kosciusko, and other braves in the days of our direst need. We may indeed spend pleasant hours among her vine clad plains and terraced hills. We may enjoy the Champs Elysees and beautiful fountains, the elegant drive ways and stately buildings, the monumental churches, the crowded thoroughfares with the afforded study of a myriad of handsome faces and luxuriously dressed civilians—the cosmopolitan air, indeed, of gorgeous Paris, but in spite of all this, as we love the city and love the land, esteeming the great French nation, we cannot but wish her return to a stable government such as will ensure the renewal of her renown in the halcyon days once her glorious possession.

It is not with regret I bid adieu to lovely France and part to-morrow from her shores. Though through olden family ties she might be dear to me, yet to my heart and mind is far more dear my native land beyond the Atlantic shores, America, and the banner that waves o'er her lands and almost boundless seas. How glad my heart to know that toward thee my travels turn, "Sweet land of liberty, of thee I sing." 'Tis not all sentiment, but come you abroad and as you love your dear America and care to return to her, you will joyfully hail the star-spangled banner that in triumph still waves over this "queen of the world and child of the skies." God bless you all at home.

Sincerely yours,

JNO. F. LANG.

IN the event of the final passage of the direct tax bill, Indiana will receive over one million dollars. That will put the state in splendid finnancial shape.

THE dissolution of the law firm of Harrison, Miller & Elam is announced at Indianapolis, with General Harrison retiring. The firm will be Miller & Elam. Mr. Miller was formerly a resident of Fort Wayne and applicants for the postoffice may well keep an eye on him.

THE Indiana Millers' association had a meeting at Terre Haute Wednesday for the alleged purpose of curtailing the flour output until the oversupply is reduced, and it was decided to call a meeting at Indianapolis, January 12, to further consider this plan. Twelve delegates were also appointed to represent the Indiana association at a general meeting of the millers of the United States to be held in Milwaukee to-morrow. The millers claim that the association is not a trust, and that any action taken will be for protection and will not hurt consumers. It seems to be the understanding of the millers at Minneapolis, Milwaukee and St. Louis to also reduce the output of flour about one-half, and when they get together it will be high time for the people to arrange for a breadless diet. When flour makers combine competition is killed and low prices are impossible.

The following is from the *Post* of this city, of to-day, and will be of interest to the readers of THE SENTINEL:

Colonel Lamont yesterday denied that Commissioner Edgerton had tendered his resignation to the president before leaving for his home, and he added that he had no reason to believe that Mr. Edgerton thought of resigning.

Mr. Edgerton is very popular here with all parties and they would regret to hear of his resignation. S. M. H.

MASON & HAMLIN

The cabinet organ was introduced in its present form by Mason & Hamlin in 1861. Other makers followed in the manufacture of these instruments, but the Mason & Hamlin Organs have always maintained their supremacy as the best in the world. In Mason & Hamlin other, as demonstration of the unequalled excellence of their organs, the fact that at all of the great World's Exhibitions, since that of Paris, 1867, in competition with the best makers, they have received the highest honors. Illustrated catalogues $22 TO $9900. free. Mason & Hamlin do not hesitate to make the extraordinary claim for their pianos, that they are superior to all others. They recognize the high excellence achieved by other leading makers in the art of piano building, but still claim superiority. This they attribute solely to the remarkable improvement introduced by them in the year 1882, and now known as the "MASON & HAMLIN PIANO STRINGING," by the use of which greater purity and power, together with greatly increased compass, GRAND & UPRIGHT, by the use of which greatest possible refinement of tone, together with greatly increased capacity to stand in tune and other important advantages.

FRIDAY, DEC. 14. 1888.

IT IS GREAT.

"Lost in New York" With all its Novelties Comes Here.

"The Lost in New York" party arrived from Lafayette to-day, having made a most successful two nights engagement there.

The Lafayette papers are profuse in their praises of the show.

"Lost in New York," is a strong drama. It will place upon the stage a body of water sixty by twenty feet and deep enough to float a real steamer that will carry passengers back and forth as the plot of the play is carried out. The scenery settings for the water are true to life as seen in New York harbor, and the steamer will present a real life-like appearance. Grammercy park, the home of Samuel J. Tilden and other millionaires, will be presented in true representation. The play is refined and full of deep interest from the first act to the last.

Pretty, piquant, pleasing Patrice, that most charming of all soubrettes, is still with the company. Patrice is not only great in comedy, she is great and grand in all she does. In the emotional scenes of the play she is full of pathos and sentiment, and has the sympathy of the audience from her first appearance on the stage until the curtain falls on the last act.

The company plays at the Temple to-night and to-morrow night, with a matinee to-morrow afternoon.

Important If True.

The Indianapolis *News* says:

"A report was telegraphed from here to the Eastern newspapers last night that Judge Woods, one of the confidental friends of General Harrison, had, in a conversation with two or three gentleman at Fort Wayne, named the men he thought would be in the cabinet, and Mr. Blaine was among them. Great importance was attached to it, and if true it would be accepted by many people as very significent. Judge Woods stated to a *News* reporter this morning however, that the report was not true."

REMARKS BY MR. SMITH, OF SMITHVILLE.

A new book is announced: "How to Get Married." Will some one please write on "How to Live Afterwards?"

A gentleman by the name of Experience has been lecturing down this way. Though his charges are exhorbitant, he never lacks an audience.

The editor returns thanks to Mr. Tom Burton for three celluloid collars. We are now offering two of them in exchange for an article to wear with the odd one.

There has been no railroad wreck within the last half hour, but the town is full of life insurance drummers, and there is no telling what the morrow may bring forth.

As we drew a chair up to the table and sat down to enjoy our humble meal yesterday morning it went to pieces with us and we were precipitated to the floor. Straightway the landlord raised the board on us, remarking that the fare was too fattening for the money.

A subscriber sends us a goat in payment for a year's subscription. He will hereafter take charge of the rejected manuscripts, having a fondness for poems on spring and obituary notices exceeding ten lines.

Brother, don't stop your paper just because you don't agree with the editor. The last cabbage you sent in didn't agree with us either, but we didn't drop you from our subscription list on that account. No; we simply said, "Make us thankful for what we are about to receive," and after we received it we were not able to say anything.—*Smithville (Ga.) News.*

BOOKS WITH QUEER TITLES.

"What would you like?" asked the book dealer of his customer.

"Nobody's Business," was the laconic answer.

"Do you want a book?"

"'Why Not.'"

The above is merely a specimen of what people ask for at the counters of a book store or circulating library.

"Is 'Doctor Cupid' in?" asked a young lady in fashionable attire. She is fond of Rhoda Broughton. So is some one else, evidently, as the "doctor" is not in.

"Have you 'Heart Hungry?'"

This time it is a woman with a nervous manner and great hollow eyes. She absorbs all the novels she can obtain—is, in fact, a chronic novel reader.

"Tak' 'Crucify her;' it's a new buik and every whit as good," suggests the librarian.

"No, give me 'The Master Passion.'"

"I want the 'Hidden Hand.' Ma says she read it when it came out ever so many years ago and that it's awful exciting."

This from a little girl of 12, who is evidently taking a course of reading approved by her mother, as she returns "The Lamplighter," another old-time novel.

"Noo will ye mark that," said Mr. Andrews, in high glee; "my certes, that 'Hidden Hand' is just going like hot cakes among the wimmin. I'll have to read it mysel' to see what's in't. And there's buiks on me shelves worth their own weight in gold and nobody wants them."—*Detroit Free Press.*

READ-WORK.

Women who prefer employment to ennui are now spending their leisure hours in bead-work—an old-time amateur industry which is being revived quite commonly. It is a different style of bead-work though from that in vogue some years ago. There is none of the all-over work in many colors and intricate designs so popular then. The new bead-work is very much prettier and more graceful, consisting mainly of a kind of sketching in out-line with small glass or gold and silver beads on a background of lace or mull.

"Trust Him Not, He is Fooling Thee"

Beware of the druggists, who, by fraud and wile,
Your better sense and judgment would beguile;
Who for trifling gain will trick and cheat,
And foist on you a worthless counterfeit;
His glib words heed not, 'though he does proclaim
The substitute "as good" or "just the same";
Insist on your intent, or you will rue
The disappointment certain to ensue.
Remember always. Pond's Extract is to be obtained only in bottles of Pond's Extract Company's own putting up (buff wrappers, with landscape trade mark) and in no other way. Anything offered you not so put-up is a counterfeit; refuse it.

Miss Nellie Monroe, of Camden, N. J., is an enterprising young lady who is determined that the horrid men shall not show a superiority in the matter of marrying. Within five years she accumulated four husbands, and but for the fact that one of them sought a divorce she might have beaten the record of old Brown before she was half as old as he.

It's Always the Way.

"Didn't I tell you so?" said a gentleman to an acquaintance whom he chanced to meet on the street; "it's always the way." "What's always the way?" inquired a mutual friend of the two men who happened along just then. "Why, just this," replied the first speaker, "you see Smith, here, the last time I met him he had one of the worst coughs you ever heard. He complained of a loss of appetite, of night-sweats, of low spirits and other unmistakable premonitory systems of consumption. I told him to get a supply of Dr. Pierce's Golden Medical Discovery at once. He did so and look at him now! Did you ever see a healthier looking man? The 'Discovery' has snatched thousands from consumptives' graves. I knew it would cure Smith. It's always the way."

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

THE HUM OF THE WHEEL.

The Sentinel Reporter Strikes a Bonanza of Railroad Items This Morning.

Three new men secured employment yesterday at the Bass machine shops.

Henry Mineker, of the Olds works, was married yesterday to Miss Bertha Geerken.

The Wabash took several men to Bedford, Ind., this morning, to work on a railroad there.

A number of the Pittsburg employes attended the wedding reception of Mr. Henry Mineker.

Robert Kinniard, of the Wabash machine shop, has returned to work after having been sick for some time.

President W. O. Hughart, of the Grand Rapids railroad, is now in New York on business for his company.

"The wheel and finishing rooms at the Olds wheel works are rushed with work," says Foreman Russell Thompson.

There were several emigrants in the Wabash passenger room this morning. They were waiting for a train for the west.

Mr. Dick Thompson, the Wabash ticket agent, has returned from Reading, Mich., where he was visiting his parents.

Walter G. Coleman, general traveling agent of the Florida Railroad and Navigation company, was in the city last evening.

W. A. McWhinery, passenger agent of the Chicago, Milwaukee and St. Paul road, with headquarters at Cleveland, is in the city.

Several employes of the Electric Light company went to Grinnel, Iowa, this morning, to do some work for the company there.

M. E. Tuttle, of Columbia City, and E. M. Wood, of North Madison, have taken positions in the Pittsburg train dispatcher's office.

Felix Fromuth, of the Bass machine shops, had his leg badly injured yesterday, by an eccentric rod falling upon it, but he still remains on duty.

The Wabash will pay off its employes next Thursday. Its pay day, which ustually occurs on the 23rd comes on the 20th this month, which is three days earlier.

Since Dennis O'Connor has taken charge of the drill press in the Pittsburg machine shop he has given notice, so the boys say, at least, that "no Irish need apply."

C. C. Mordough, traveling passenger agent of the Chicago, Milwaukee and St. Paul railroad, with headquarters at Indianapolis, was a caller at the office of Ticket Agent Ross, of the Pennsylvania, yesterday.

Passenger business on the Pennsylvania out of this city, is better than it was this month last year. So far the receipts for the month exceed by $700 the receipts for the corresponding month of last year.

Mr. Bob Douglass, the assistant Wabash ticket agent, took a silver German coin, called a "Thaler" from an emigrant this morning in payment for a ticket. It is worth sixty-nine cents and Bob retains it as a pocket piece.

Colonel Church, master of transportation of the Pennsylvania on the southwestern system, says he could load 10,000 cars with grain in the next ten days if he had the cars at his command. All the roads are handicapped in the same manner.

Frank Howey, of Shop Clerk Meegan's office of the Pennsylvania company, has been on the sick list for several days. When he returns to work he will take a clerical position in Master Car Builder Graham's office. He was formerly employed there.

The Pennsylvania people are taking out the iron cross ties in many places which they placed under their track as a test a few months ago. They proved a failure, having no elasticity. The cost of an iron tie is double that of the ordinary oak tie, but it would doubtless last four times as long had it been a success.

"The duties of the switchman," said one of the members of that fraternity to our reporter this morning, "are the most dangerous of any of the men engaged in railroading. We are in constant danger of either losing our lives or meeting with an accident, and yet we receive the poorest pay of any class of railroad men requiring our skill and responsibility. We leave our families in the morning and before the day closes we may be taken to our homes a corpse. But then that is our chosen life, and I must confess, I am getting used to it and seldom think of the dangers."

An old time engineer calls our attention to a paragraph that appeared in one of our railroad items the other day. "You newspaper fellows may be pretty smart," said he, "but you miss it most woefully sometimes when you come to describing the workings of a locomotive. For instance, in speaking of the experiment of running mogul locomotives on vestibule trains you said: 'The drivers are so small that the pistons are compelled to move so swiftly the steam can not follow them, and when a certain speed is reached the engine works against herself.' You evidently hain't up in mechanics, for the pistons would'nt work at all if it [illegible]

GROWING INTO A GIANT.

The Canada Annexation Scheme is Gaining Force and Alarming the Loyal Canadians.

MONTREAL, Can., Dec. 14.—The publication here of the resolution introduced by Mr. Butterworth has had a startling effect. Everybody is discussing it and looking forward anxious as to what course the senate and house of representatives will pursue.

"The mask is off at last," said Mr. Taillon, a conservative leader in the provincial parliament. "We have held all along that commercial union was disguised annexation, and here now is Butterworth, a most pronounced advocate of the former policy, coming out boldly for annexation. The loyal Canadians will have to kill the piggy soon, as it is fast growing into a giant."

TORONTO, Ont., Dec. 14.—Commenting on the Butterworth resolution, the *Empire*, the leading government organ, calls it an insulting overture, and says it is the leaders of the Canadian opposition, who have, by their words of sympathy, invited this insult to their country.

The *Globe* (an opposition paper) says: "One thing can be said for Mr. Butterworth's curious proposal, its adoption by congress would probably lead to a thorough exposition and understanding of the Canadian opinion as to the project of political union with the United States. We have no doubt that the judgment of Canadians in the matter would be such as to cure our neighbors of the delusion that has long kept them from trying to make the best of the possible political separation of the two countries.

NEW YORK, Dec. 14.—The *Evening Post* contains the following: "The Canada annexation resolutions, introduced in congress by Benjamin Butterworth, of Ohio, have greatly moved the Canadians both in the United States and across the St. Lawrence. Erastus Wiman said to-day to a reporter, who asked him what he thought of Mr. Butterworth's scheme: 'I'm knocked between the eyes. I never saw such a fatal mistake. I cannot conceive how Butterworth came to do it. The idea I have is that here never was so contented a people as the Canadian! I am very much disturbed at Mr. Butterworth's move. He says there are two parties to every bargain. In this case there may happen to be three, viz: The United States, Canada and England. If two out of three parties are unwilling to trade, a trade is impossible. There has not been the slightest sign on the part of these two for political union. Until there is such a sign it is submitted that an invitation given and rejected would do more harm than good."

A FATAL FALL.

Several Men Killed by the Falling of a Seaffold.

STEVENS POINT, Wis., Dec. 14.—About 9 o'clock, this forenoon, ten men were at work on the inside of the waterworks stand pipe upon scaffolding nearly ninety feet from the foundation. Suddenly one side of the scaffolding gave way, throwing five men to the stone bottom. The killed are: Charles Myers, of this city; Harry Silis, of Chicago; Al. Albus and Jack Ainsworth, whose homes are in the east. The injured man is John Smith, also a stranger here.

FOUND DEAD.

The Sudden Death of the President of the Pittsburg Locomotive Works.

PITTSBURG, Dec. 14.—David A. Stewart, chairman and treasurer of Carnegie, Phipps & Co., and president of the Pittsburg locomotive works, was found dead in bed this morning, at his home in the east end. The deceased was about fifty years of age and was apparently in good health when he retired last night.

Congress.

Also proposed that those states shall be admitted by one bill. Utah, although not mentioned in the resolution, was agreed should be admitted into the union [illegible]

The President Indignant at the Attorney's Course in Resigning Now.

WASHINGTON, Dec. 14.—Attorney General Garland yesterday received a telegram from United States District Attorney Sellers, at Indianapolis, declining to withdraw his resignation and insisting on its acceptance. It is said that the president and attorney general are very much dissatisfied with Mr. Sellers' course in relinquishing his office just at this time when so many important matters are pending in his office and it is intimated that he may be dismissed instead of being allowed to resign.

Bernhamer Saves a Thousand Dollars.

INDIANAPOLIS, Ind., Dec. 14.—The laundry department of the state's hotel, at Michigan City, will not be deprived of an ornament in the person of Mr. Bernhamer until the 3rd day of February. Bernhamer's term expires on the third day of the new year, but there is hanging over him a fine of $1,000 and the costs of the trial, amounting to perhaps another thousand. These he must either pay or work out. The federal law makes it as easy for a prisoner to pay a million dollar fine as a four dollar one. Whatever the fine it may be boarded out in thirty days. It is not believed that Mr. Bernhamer's stay in prison has so changed his nature that he would rather pay cash to the amount of $1,000 than to wear stripes a month.

Indictments Found Against Indiana White Caps.

INDIANAPOLIS, Dec. 14.—The governor has received letters from the state's attorneys who are prosecuting the White Caps in southern Indiana, in which they report that they have succeeded in procuring four indictments, two of which are on the charge of attempted murder. There are eleven defendants. The attorneys think that they are certain to convict at least seven or eight of the indicted men.

Will Appeal to the Supreme Court.

INDIANAPOLIS, Ind., Dec. 14.—Lieutenant Governor Robertson, of Fort Wayne, yesterday said, in reference to his damage suit against Green Smith, which was decided in favor of the defendant, that he will appeal to the supreme court. He has no fault to find with the lower court's decision, as it is in accordance with a precedent established by the supreme court. He is confident, however, of winning the suit in the higher court.

The New Bishop of Milwaukee.

LANCASTER, Pa., Dec. 14.—Rev. Cyrus F. Knight, D. D., D. C. L., rector of St. James Episcopal parish, this city, received official announcement of his election as bishop of the Milwaukee diocese, as the successor of Bishop Wells. Dr. Knight graduated at the General Episcopal Theological university, and has been rector of St. Marks, Boston; St. James, Hartford, and St. James, this city. He is about fifty-five years of age.

Fugitist White.

LAFAYETTE, Ind., Dec. 14.—Dick Keating and Ed. B. White, the principals in the bloody Sunday fight at Perrysville, have signed articles of agreement to fight to a finish, Marquis of Queensbury, with two-ounce gloves, for a purse of $200. The fight is to come off within fifty miles of this city, and inside of ten days. White is dissatisfied with the decision of the referee in the former fight and wants satisfaction.

A New Brewery Interest at Lafayette.

A BOSTON FIRE!

An Extensive Block in That City, With a Collection of War Relics, is Destroyed.

BOSTON, Dec. 14.—Shortly after two o'clock this morning, the Everett block, in Hyde Park, a large stone front building, was discovered to be on fire. The fire started in the Boston Cash market in the basement and spread quickly to the upper stories. The firemen were hampered in their work by the frozen condition of the hydrants and the fire obtained considerable headway before any water had been thrown. On the third floor was the town hall, in which was a valuable collection of war relics and oil portraits, and in a room adjoining a Grand Army fair was being held and many relics, etc., was also gathered there, numbering over 2,000 articles.

All these were destroyed, together with all the booths and fancy articles connected with the fair. The Everett block was completely burned out and will be a total loss. It is owned by A. A. Holway, and valued at $80,000. The insurance is unknown. The war relics and oil paintings destroyed are believed to be worth $125,000.

MR. BLAINE.

The Talk About a Cabinet Position for Him.

BOSTON, Mass., Dec. 14.—An Augusta, Me., special says that Mr. Blaine declines to give any information as to the story of his having been offered the secretaryship of state, and that Joseph H. Manley states that he does not believe General Harrison has tendered the position to Mr. Blaine, although he has always believed that it should be tendered and that Mr. Blaine would accept.

"Old Hutch" Seriously Ill.

CHICAGO, Ill., Dec. 14.—For a number of years B. F. Hutchinson, familiarly known as "Old Hutch," has been a daily visitor on the board of trade, and his absence to-day caused considerable comment. A statement made by his broker was to the effect that the man who manipulated the great wheat corner a few months ago was very seriously ill. The chances are that he will be compelled to leave Chicago when he recovers sufficiently.

The White Traveler.

LONDON, Dec. 14.—In the house of commons this afternoon, Mr. Smith, a government leader, replying to Mr. Wilfred Lawson, said that so far as was known to the government, the letter written by Osmon Digna, announced the surrender of Emin Pasha and a white traveler. The government has no way of knowing whether these allegations were well founded.

A Grave and Serious Proposition.

COLUMBIA CITY, Dec. 24.—Queer coincidences were noted here recently. One of the principal physicians was driving leisurely up the street, while on the sidewalk, going in the same direction, were a grave digger and a minister, following them were the undertaker and a hearse, and bringing up the rear was a tombstone man with a load of tombstones.

Shot His Brother for a Squirrel.

LAFAYETTE, Ind., Dec. 14.—Beckner Ward, of this city, was accidentally shot in the head and shoulders and seriously injured yesterday afternoon while hunting. His brother mistook his fur cap for a squirrel and fired the contents of a double-barreled shot-gun at it.

The American Federation.

ST. LOUIS, Dec. 14.—The first work before the American Federation of Labor this morning was the reception of the report of the committee on boycott and labor. The committee recommended several boycotts. The convention then ordered the use of union labels. The report of the committee on constitution was taken up and considered seriatim.

During the debate some serious reflections were cast upon the Knights of Labor, and the assertion was made that the order was rapidly disintegrating. O. R. Lake, representing the International Typographical union, defended the knights and claimed there was no foundation for the statement that the order was dwindling away.

TO ENDOW A SCHOOL.

Isaiah V. Williamson, the bachelor and Quaker many-millionaire, of Philadelphia is to be credited with with one of the grandest benevolent enterprises of modern times. He has determined richly to endow a great industrial training school for boys, where every boy can be taught some trade free of expense. His plans are not yet completed, but it is understood that the new school will be as extensive in its aims and proportions as Girard College, and that the limit Mr. Williamson will place on this gift will be $12,000,000.

Over the whole of Venezuela hangs an impending cloud of revolution and anarchy, casting far in advance shadows of financial and personal uneasiness. Guzman Blanco is away in France, but his spirit is still feared; and the coming presidential election is regarded as a sure signal for disturbance.

As a leading merchant said to me today: "It is not possible to have matters worse—any change will be welcome." Perhaps; but to an American, a change involving bloodshed, general anarchy, and years of national retrogression, would be worth avoiding at any sacrifice. What I said in these columns last year has come true, and it is a sad thing for Venezuela that Guzman Blanco's tired hands have laid down the reins of State.

Government House, the official residence of the President, faces a little square; a commodious building of white stone, where I was presented to His Excellency, President Jose M. Ernazabal, who rules the great State of Bolivar, which is composed of the smaller ones—Apure and Guyana. He is a courteous gentleman of liberal education and high appreciation of his country's value, holding a position similar to our State Governors, except that he is directly and personally responsible to the Central Government at Caracas for his administration. — *Dr. Wm. F. Hutchinson, in the American Magazine.*

A BAD ANARCHIST.

He Threatens to Kill His Wife and Would Give Up His Life to Bring About the Death of Chicago Officials.

CHICAGO, Dec. 14.—Frederick Maisch was arraigned in police court this morning on complaint of his wife. He was in the habit of spending his nights at anarchist meetings and had threatened to kill her, and said he would give up his life to compass the deaths of Police Inspector Bonfield, and Judges Gary and Grinnell. He was held in bonds to keep the peace.

HOW THE INVALID GO BE AT HOME.

The invalid, like the poet and like all acute, sensitive beings, is remarkable not for seeing differently, but for seeing more than do the rest of the world. He endows everything about him with personality. Cold, hard substances are to his avowed enemies. The soft, the yielding, the woolly, fill him with gratitude and delight. The arm-chair invites and embraces him. The tiny teapot and ewer are eager to do him service, and the gruel bowl displays a fairly maternal solicitude. His couch is a Fidus Achates, his pet pillow a Nestor, or whatever his childhood's nurse was named. As to the bottles arranged on his table, only the doctors who prescribed them can surpass their marked and individual interest in their shapes. A glow of genuine affection fills me when I glance at Tonic, so many times has he proved worthy of the confidence reposed in him when the "lamp of life burned low." Liniment's unctuous sides are nearly bursting with oblivious good-nature. Fine old bourbon has an irresistible bacchanalian leer. Stout Camphor needs only spectacles and a bag to make an old fogy of him. Shy little Morphine, hiding behind his bottle has a sinister, suggestive, Machiavellian look, which at once attracts and repels.—*A. B. Ward, in Lippincott's Magazine.*

THE WHITE CAPS.

Their Motives Appear to Be Somewhat Mixed.

The White Caps seem to have become epidemic, or ubiquitous. We hear of them all over the country, but did not think they would commence [illegible] in this vicinity so soon. But C. L. Perry, manager of the Western Union telegraph office, in this city, has received several missives signed "Committee of the White Caps," warning him that he would be attended to as [illegible] openly. These White Caps, from their record, are [illegible] devils. They whip, torture and sometimes kill. They wear white caps, and of course they wear clothes, but their clothes are not said to be of the latest style of garmental architecture. Nevertheless, if any man or boy who wears this wants to get a garment or a suit of fine fashionable clothing or a slip-on overcoat to shield him from winter's chilling blasts, just let that man or boy supply himself with a little ready cash and step into the clothing emporium of Original Fete, 521 Calhoun street, opposite the court house, and you bet your life he will be suited in short time, and at very reasonable rates.

The 46th Regiment's Reception.

The locomotive engineers will give a grand reception and ball at the Princess rink, Dec. 20, next, and have made elaborate arrangements to make the occasion exceedingly pleasant and enjoyable for all. Conley's orchestra of eight pieces will do musical honors and the banquet will be from McKinnie's famous railroad hotel. 14-2t

No Universal Remedy

has yet been discovered; but, as at least four-fifths of human diseases have their source in Impure Blood, a medicine which restores that fluid from a depraved to a healthy condition comes as near being a universal cure as any that can be produced. Ayer's Sarsaparilla effects the blood in each stage of its formation, and is, therefore, adapted to a greater variety of complaints than any other known medicine.

Boils and Carbuncles,

which defy ordinary treatment, yield to Ayer's Sarsaparilla after a comparatively brief trial.

Mr. C. E. Murray, of Charlottesville, Va., writes that for years he was afflicted with boils which caused him much suffering. These were succeeded by carbuncles, of which he had several at one time. He then began the use of Ayer's Sarsaparilla, and after taking three bottles, the carbuncles disappeared, and for six years he has not had even a pimple.

That insidious disease, Scrofula, is the fruitful cause of innumerable complaints, Consumption being only one of many equally fatal. Eruptions, ulcers, sore eyes, glandular swellings, weak and wasted muscles, a capricious appetite, and the like, are pretty sure indications of a scrofulous taint in the system. Many otherwise beautiful faces are disfigured by pimples, eruptions, and unsightly blotches, which arise from impure blood, showing the need of Ayer's Sarsaparilla to remedy the evil.

All sufferers from blood disorders should give Ayer's Sarsaparilla a fair trial, — avoiding all powders, ointments, and washes, and especially cheap and worthless compounds, which not only fail to effect a cure, but more frequently aggravate and confirm the diseases they are fraudulently advertised to remedy.

Ayer's Sarsaparilla,

Fort Wayne Sentinel.

E. A. E. HACKETT, Editor and Proprietor.

FRIDAY, DEC. 14, 1888.

REPRESENTATIVE HOWARD, of Indiana, has introduced a bill to punish bribers and bribe takers at congressional elections by disfranchisement for from six to ten years.

TOM ATWORTHY, the defaulting treasurer of Cleveland, has offered to turn over $160,000 to the city and to repay his bondsmen in two years if permitted to return to the country. Be it ever so humble, etc.

MAYOR O'BRIEN, of Boston, was beaten for re-election Tuesday. The parochial school scare and the influence of women workers and voters compassed his defeat. Thomas N. Hart will succeed him.

THE White Caps are being heard from in different parts of the country. It is probable that their rumored existence and warnings in many places are nothing more than a hoax, originated by some sensation monger.

IT IS asserted that Brickner and Berwig (democrats), elected to congress from Wisconsin, are ineligible, for the reason that they are not citizens. Both came to this country as minors, and it is claimed that their fathers were never naturalized.

GENERAL HARRISON has written to an English correspondent that relatives, who have studied the matter, claim his family is descended from General Thomas Harrison, an officer in Cromwell's army, but states that he himself has never examined into the evidence.

NEARLY a hundred consuls in Europe have answered the questions sent out by the Ford congressional immigration committee. They agree that we are getting the scum of the population over here, and that ignorance, deceit and steamship owners' greed combine to flood us with this class of people, often in spite of our laws, always to our injury.

GENERAL HARRISON can expect to convict none of the democratic officials of offensive partisanship, since THE SENTINEL made it known yesterday that they have 98,781,980 rods of fence in the state to perch upon. A democrat who can not "get on the fence" under such favorable circumstances ought to be curtailed.

THE governor has issued a certificate giving the names of all the electors voted for at the late election, with the number of votes received by each and announcing which are elected. Four copies of the document are issued. One goes to the United States secretary of state and three to the elected electors, who give one to the federal judge of this district, send one to the president of the senate, and the third by special messenger to the seat of government.

NOT SO BAD AS PAINTED.

If the Pittsburg shops and the Jenney Electric Light works, and two or three other such institutions were to be removed from this city, the people might as well rebuild the old fort, get some buck skin clothes, put on their war paint and go to chopping wood and trapping skunks.—*Daily News.*

THE SENTINEL agrees that it would be a sore calamity for Fort Wayne to lose the great Pittsburg railway shops, or some equally important industry, but it does not agree that such a loss is probable or that it would obliterate the city. Thanks to two or three other industries as great as the shops of the Fort Wayne road and the enterprise, thrift and foresight of the merchant community Fort Wayne has passed the danger line.

Some losses would tend to temporarily check the growth of the city, but none of them can operate as an estoppel, even though a few Fort Wayne editors regale themselves in "buck-skin" thoughts and "coon-skin" lingings.

No city in the union rests on a better or healthier basis than Fort Wayne, and no city has done more for her railroad interests. As our railroads prosper, we prosper, but as we prosper the railroads prosper to a corresponding degree, and it is probable that the local trade and passenger traffic will more than equalize with the local favors of the railroads, so that things are equal.

But aside from these comparisons, no city in the world offers to its corporations and manufacturers a better or more conservative class of workmen than does Fort Wayne and certainly no municipality has a greater regard for the mutual interests of both. We have schools and churches, libraries and charities,—banks and savings societies that beget a spirit of home pride and residence—every influence that tends to make a good people, and these facts are more important to capitalists and corporations than most people realize.

The natural position of the city between the great busy centers of the east and west, between the ore and coal mines and the vast forests—all are potent factors in our greatness and will continue so as long as such conditions exist.

THE SENTINEL must give publicity to idle rumors in the way of news, but nothing can shake its faith in the growth and prosperity of Fort Wayne, and feeling this way it has no sympathy with the chronic grumblers who see disaster in every change of the moon and calamity in every wail of the night wind.

Sentiments of that sort do a city more harm than the removal of half a dozen shops, for they paralyze business at home

GAY PARIS.

Chancellor Lang Pictures His Trip Through Fertile and Picturesque France—Longing for Home.

(Correspondence of THE SENTINEL.)

PARIS, France, Nov. 20, 1888.

Take it not amiss that another letter from me, probably a last from a foreign land, should be sent you so soon after it was my pleasure to write you from Lourdes.

From the place just named we travelled six hours to reach Bordeaux. Our arrival in this city of 500,000 inhabitants was after the gloaming. The gas light is profuse, but no electric lamp illumines the darkened nubial air, and hence one naturally regrets that his entry to this great commercial city is so late after sunset. Electric lamps have not enlightened the people of Bordeaux.

We rest for the night and next morning, at 8:35 o'clock, are off for the metropolis of France. Along the way, which is 358 miles, we see the old style stone houses upon the farm lands, and covered, like those of Belgium, with the durable tile, not so fancy but surely of service. Some of the village houses adown the route are slate roofed, whilst others have the old fashioned shingle board.

In the fields men were plowing and women were herding kine. Not a few indeed were knitting, whilst their sheep fold, and again the cows, were grazing or browsing upon the richly green meadow lands.

Gardens were still in fruition—lettuce, cabbage, the mustard plant, and the little corner, not so small indeed, given to flowers, which were still in full bloom, as at home, in dear America, during September's sunshine days.

And again, irrigation is well managed in France, which to explain would require too much space. And along the mountain streams and the brookside women are seen washing the household goods, which are spread upon the hedge or fruit tree branches under the warm rays of the sun to draw out the little dampness that may remain, quite unlike the clothes line stretched from window to window in the large cities.

From Lourdes to Pau we traveled through romantic mountain, valley and hillside scenery, all of which is under cultivation. From Pau to Bordeaux most of the country is a pine forest devoted to the gathering of turpentine and tar. From Bordeaux to Paris, amid the agricultural products of corn and wheat, and the garden spot already referred to, the traveler sees, no doubt, the best vineyards of France. At any rate he sees here the most extensive and the most richly cultivated wine lands, all clean and thriving as a flower bed, though covering in the aggregate many thousand acres.

Whilst waiting at Bordeaux for the train to start I took occasion to notice that the air brake of the train runs in a curve from under the car to a perendicular height of probably eighteen inches. From the end of this to the end of the iron-inch-and-a-quarter-tube rising in like manner from the other car a rubber hose is attached. There are no buffer couplers, properly so called, at the end of the cars. There is a steel rod about eighteen inches long extending from each corner of the car, which at its end, has a plate-like circular spread ten inches in diameter serving as a bumper. The coupling is by two links, one end of the link thrown into a hook fastened in a crossbar of the car. The two links are connected by a round bar an inch in diameter which has a thread cut from end to end; the two links each have a swivel so that there is no rigidity about their connection except when both the extreme ends of the links are attached to the two cars and this connecting bar is turned so as to draw, by means of this screw thread, the two cars, closely up to the two bumper-faces. Then, two chains, one on each side of this center coupling, are hooked into each other. Thus are cars coupled in most parts of the continent.

Well, after a ride of nine hours through romantic scenery with landscape of rolling lands in garden, fruit, vintage, flowers, and bowling scenes, romantic scenery and usefulness beautifully blended, we finally come into the city of the Napoleons. From the days of the little corporal 'neath whose conquering banner many a good Frenchman fought, even until now the spirit so gigantic in its views, yet so carefully grasping in its ambitious designs of subjecting and ruling all Europe, even until now the great mind and wonderful genius is felt, not alone in Paris but all through France.

So far as I have been able to study the provinces, there is a growing desire of returning to monarchical government. There is much frivolity and little stability apparently in French republics.

Nearly two million people dwell in Paris. It is a city of broad sidewalks, broad streets, gingantic buildings, and of broad ideas, a city of luxury, a great gathering of a cosmopolitan class of people that makes and unmakes fashions which are followed and dropped by people greater and more ingenious perhaps, except in many things to copy, than those of Paris.

Whilst there is solidity, stability, and grandeur, mingled in the Ville de Paris with luxury and splendor, whether in stores, gardens, buildings, ways of living, etc., there is, nevertheless, just as much to the credit of the city and its inhabitants on the side of the good. Religion, at one time scoffed at, is gaining ground. France will never succeed, nor continue to prosper, except as she is

day which will bring into check the licentious luxury once so common, and will bring back to better days, to more stable success of government the land dear to the sons of France at home and abroad. Americans who love their country cannot look with nonchalence upon the land that sent to us from the flower of her army her LaFayette, Kosciusko, and other braves in the days of our direst need. We may indeed spend pleasant hours among her vine clad plains and terraced hills. We may enjoy the Champs Elysees and beautiful fountains, the elegant drive ways and stately buildings, the monumental churches, the crowded thoroughfares with the afforded study of a myriad of handsome faces and luxuriously dressed civilians—the cosmopolitan air, indeed, of gorgeous Paris, but in spite of all this, as we love the city and love the land, esteeming the great French nation, we cannot but wish her return to a stable government such as will ensure the renewal of her renown in the halcyon days once her glorious possession.

It is not with regret I bid adieu to lovely France and part to-morrow from her shores. Though through olden family ties she might be dear to me, yet to my heart and mind is far more dear my native land beyond the Atlantic shores, America, and the banner that waves o'er her lands and almost boundless seas. How glad my heart to know that toward thee my travels turn, "Sweet land of liberty, of thee I sing." 'Tis not all sentiment, but come you abroad and as you love your dear America and care to return to her, you will joyfully hail the star-spangled banner that in triumph still waves over this "queen of the world and child of the skies." God bless you all at home.

Sincerely yours,

JNO. F. LANG.

In the event of the final passage of the direct tax bill, Indiana will receive over one million dollars. That will put the state in splendid financial shape.

THE dissolution of the law firm of Harrison, Miller & Elam is announced at Indianapolis, with General Harrison retiring. The firm will be Miller & Elam. Mr. Miller was formerly a resident of Fort Wayne and applicants for the postoffice may well keep an eye on him.

THE Indiana Millers' association had a meeting at Terre Haute Wednesday for the alleged purpose of curtailing the flour output until the oversupply is reduced, and it was decided to call a meeting at Indianapolis, January 12, to further consider this plan. Twelve delegates were also appointed to represent the Indiana association at a general meeting of the millers of the United States to be held in Milwaukee to-morrow. The millers claim that the association is not a trust, and that any action taken will be for protection and will not hurt consumers. It seems to be the understanding of the millers at Minneapolis, Milwaukee and St. Louis to also reduce the output of flour about one-half, and when they get together it will be high time for the people to arrange for a breadless diet. When flour makers combine competition is killed and low prices are impossible.

WASHINGTON, Dec. 11, 1888.

To the Editor of THE SENTINEL.

The following is from the *Post* of this city, of to-day, and will be of interest to the readers of THE SENTINEL:

Colonel Lamont yesterday denied that Commissioner Edgerton had tendered his resignation to the president before leaving for his home, and he added that he had no reason to believe that Mr. Edgerton thought of resigning.

Mr. Edgerton is very popular here with all parties and they would regret to hear of his resignation. S. M. H.

MASON & HAMLIN

The cabinet organ was introduced in its present form by Mason & Hamlin in 1861. Our experience gained in the manufacture of these instruments, and the Mason & Hamlin Organs have always maintained the reputation of being the best in the world.

In Mason & Hamlin other, as demonstration of the superiority and excellence of their organs, the fact that of all the great organ factories in the world, Paris, 1867, Paris, 1878, Paris, 1889, each and every one has awarded to Mason & Hamlin ORGANS the highest honors, and in addition to this, the Paris Exposition of 1878 conferred upon them the only medal ever given to cabinet organs, thus placing them entirely beyond competition as to the quality of their instruments. Illustrated catalogues free.

Mason & Hamlin Organs are made in the only manufactory extant, for their pianos, that they are superior to all others. They recognize the high degree of excellence attained by many makers in the art of piano building, but still claim superiority. This they attribute solely to the remarkable interior construction of their Cabinet Grand and Upright pianos, which has been the result of many years of experiment, and the expenditure of many thousands of dollars. Illustrated catalogues free.

Mason & Hamlin ORGANS and PIANOS are sold for cash or easy payments, or rented, with rent applied if purchased, by

"The Gladstone"

LAMP

Is the finest lamp in the world. It gives a perfect, soft, brilliant white light. Is absolutely safe. Is a marvelous power. A marvelous saving from drudgery and oil! Nobody ever supposed such light was possible from kerosene oil; yet it is there, and

A wonderful lamp! It is not a toy. It never needs trimming. It cannot break (chimney, burner and all). It cannot smoke, no leaks, no smell, no explosion. And then, besides all these advantages, think of a lamp giving light, 12 to 100 times the size and brilliancy of any ordinary lamp!

The Gladstone is made of black-grate, hand rolled metal (all parts interchangeable), and in your choice of Sitting or Parlor Table, the Sandy, Drawing-room, Hall or Chamber. Fits any burner made. Can be used in Bronze or Antique Bronze. Every home should have it.

FRIDAY, DEC. 14. 1888.

IT IS GREAT.

"Lost in New York" With all its Novelties Comes Here.

"The Lost in New York" party arrived from Lafayette to-day, having made a most successful two nights engagement there.

The Lafayette papers are profuse in their praises of the show.

"Lost in New York," is a strong drama. It will place upon the stage a body of water sixty by twenty feet and deep enough to float a real steamer that will carry passengers back and forth as the plot of the play is carried out. The scenery settings for the water are true to life as seen in New York harbor, and the steamer will present a real life-like appearance. Gramercy park, the home of Samuel J. Tilden and other millionaires, will be presented in true representation. The play is refined and full of deep interest from the first act to the last.

Pretty, piquant, pleasing Patrice, that most charming of all soubrettes, is still with the company. Patrice is not only great in comedy, she is great and grand in all she does. In the emotional scenes of the play she is full of pathos and sentiment, and has the sympathy of the audience from her first appearance on the stage until the curtain falls on the last act.

The company plays at the Temple to-night and to-morrow night, with a matinee to-morrow afternoon.

Important If True.

The Indianapolis *News* says:

"A report was telegraphed from here to the Eastern newspapers last night that Judge Woods, one of the confidential friends of General Harrison, had, in a conversation with two or three gentlemen at Fort Wayne, mused the men he thought would be in the cabinet, and Mr. Blaine was among them. Great importance was attached to it, and if true it would be accepted by many people as very significant. Judge Woods stated to a *News* reporter this morning however, that the report was not true."

REMARKS BY MR. SMITH, OF SMITH-VILLE.

A new book is announced: "How to Get Married." Will some one please write on "How to Live Afterwards?"

A gentleman by the name of Experience has been lecturing down this way. Though his charges are exhorbitant, he never lacks an audience.

The editor returns thanks to Mr. Tom Burton for three celluloid collars. We are now offering two of them in exchange for an article to wear with the odd one.

There has been no railroad wreck within the last half hour, but the town is full of life insurance drummers, and there is no telling what the morrow may bring forth.

As we drew a chair up to the table and sat down to enjoy our humble meal yesterday morning it went to pieces with us and we were precipitated to the floor. Straightway the landlord raised the board on us, remarking that the fare was too fattening for the money.

A subscriber sends us a goat in payment for a year's subscription. He will hereafter take charge of the rejected manuscripts, having a fondness for poems on spring and obituary notices exceeding ten lines.

Brothar, don't stop your paper just because you don't agree with the editor. The last cabbage you sent in didn't agree with us either, but we didn't drop you from our subscription list on that account. No; we simply said, "Make us thankful for what we are about to receive," and after we received it we were not able to say anything.—*Smithville (Ga.) News.*

BOOKS WITH QUEER TITLES.

"What would you like?" asked the book dealer of his customer.

"Nobody's Business," was the laconic answer.

"Do you want a book?"

"Why Not."

The above is merely a specimen of what people ask for at the counters of a book store or circulating library.

"Is 'Doctor Cupid' in?" asked a young lady in fashionable attire. She is fond of Rhoda Broughton. So is some one else, evidently, as the "doctor" is not in.

"Have you 'Heart Hungry?'"

This time it is a woman with a nervous manner and great hollow eyes. She absorbs all the novels she can obtain—is, in fact, a chronic novel reader.

"Tak' 'Crucify her;' it's a new buik and avery whit as good," suggests the librarian.

"No, give me 'The Master Passion.'"

"I want the 'Hidden Hand.' Ma says she read it when it came out ever so many years ago and that it's awful exciting."

This from a little girl of 12, who is evidently taking a course of reading approved by her mother, as she returns "The Lamplighter," another old-time novel.

"Noo will ye mark that," said Mr. Andrews, in high glee; "my certes, that 'Hidden Hand' is just going like hot cakes among the wimmin. I'll have to read it mysel' to see what's in't. And there's buiks on me shelves worth their own weight in gold and nobody wants them."—*Detroit Free Press.*

For forty years, Ayer's Cherry Pectoral has been demonstrated to be the

BEAD-WORK.

Women who prefer employment to ennui are now spending their leisure hours in bead-work—an old-time amateur industry which is being revived quite commonly. It is a different style of bead-work though from that in vogue some years ago. There is none of the all-over work in many colors and intricate designs so popular then. The new bead-work is very much prettier and more graceful, consisting mainly of a kind of sketching in out-line with small glass or gold and silver beads on a background of lace or mull.

"Trust Him Not, He is Fooling Thee"

Beware of the druggists, who, by fraud and wile,
Your better sense and judgment would beguile;
Who for trifling gain will trick and cheat,
And foist on you a worthless counterfeit;
His glib words heed not, 'though he does proclaim
The substitute "as good" or "just the same";
Insist on your intent, or you will rue
The disappointment certain to ensue.
Remember always. Pond's Extract is to be obtained only in bottles of Pond's Extract Company's own putting up (buff wrappers, with landscape trade mark) and in no other way. Anything offered you not so put-up is a counterfeit; refuse it.

Miss Nellie Monroe, of Camden, N. J., is an enterprising young lady who is determined that the horrid men shall not show a superiority in the matter of marrying. Within five years she accumulated four husbands, and but for the fact that one of them sought a divorce she might have beaten the record of old Brown before she was half as old as he.

He Always Has One Way.

"Didn't I tell you so?" said a gentleman to an acquaintance whom he chanced to meet on the street; "it's always the way." "What's always the way?" inquired a mutual friend of the two men who happened along just then. "Why, just this," replied the first speaker, "you see Smith, here, the last time I met him he had one of the worst coughs you ever heard. He complained of a loss of appetite, of night-sweats, of low spirits and other unmistakable premonitory systems of consumption. I told him to get a supply of Dr. Pierce's Golden Medical Discovery at once. He did so and look at him now! Did you ever see a healthier looking man? The 'Discovery' has snatched thousands from consumptives' graves. I knew it would cure Smith. It's always the way."

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. mar-18-1y

Mrs. Mary Dow, President of the Dover, (N. H.) street-car company, has managed the concern so well that the stock is now paying dividends of 20 per cent., and has jumped from $5 to $100 a share. She should be put in charge of the Milwaukee and St. Paul.

Dr. J. M. McCoy, of Upper Sandusky, and Dr. Neal Hardy came to blows in the *Gazette* office yesterday. The quarrel grew out of the estrangement of Dr. McCoy's wife and her peculiar capers here. She proposes to get a divorce from her husband.

Capt. L. Sarchu, traveling with the "Lost in New York" company, gave an exhibition swim in the Wabash river, at Lafayette, yesterday afternoon, that was witnessed by about 2,000 people. The captain was carried up the river in a hack a mile. He was clad in his rubber suit, which made him look much like an Esquimau. Lighting a cigar and seizing his banner and paddle, he plunged into the river and struck out for the landing at the lower bridge, covering the distance in a few minutes. Here he was picked up by the carriage and taken to the hotel. He also gave quite a novel exhibition on the stage, swimming, cooking, eating, smoking and firing a gun as he floated upon the water. He will appear at the Temple opera house to-night.

THE HUM OF THE WHEEL.

The Sentinel Reporter Strikes a Sensation of Railroad Items This Morning.

Three new men secured employment yesterday at the Bass machine shops.

Henry Minaker, of the Olds works, was married yesterday to Miss Bertha Geerken.

The Wabash took several men to Bedford, Ind., this morning, to work on a railroad there.

A number of the Pittsburg employes attended the wedding reception of Mr. Henry Minaker.

Robert Kinniard, of the Wabash machine shop, has returned to work after having been sick for some time.

President W. O. Hughart, of the Grand Rapids railroad, is now in New York on business for his company.

"The wheel and finishing rooms at the Olds wheel works are rushed with work," says Foreman Russell Thompson.

There were several emigrants in the Wabash passenger room this morning. They were waiting for a train for the west.

Mr. Dick Thompson, the Wabash ticket agent, has returned from Reading, Mich., where he was visiting his parents.

Walter G. Coleman, general traveling agent of the Florida Railroad and Navigation company, was in the city last evening.

W. A. McWhinery, passenger agent of the Chicago, Milwaukee and St. Paul road, with headquarters at Cleveland, is in the city.

Several employes of the Electric Light company went to Grinnel, Iowa, this morning, to do some work for the company there.

M. E. Tuttle, of Columbia City, and B. M. Wood, of North Madison, have taken positions in the Pittsburg train dispatcher's office.

Felix Fromuth, of the Bass machine shops, had his leg badly injured yesterday, by an eccentric rod falling upon it, but he still remains on duty.

The Wabash will pay off its employes next Thursday. Its pay day, which usually occurs on the 23rd comes on the 20th this month, which is three days earlier.

Since Dennis O'Connor has taken charge of the drill press in the Pittsburg machine shop he has given notice, so the boys say, at least, that "no Irish need apply."

C. C. Mordough, traveling passenger agent of the Chicago, Milwaukee and St. Paul railroad, with headquarters at Indianapolis, was a caller at the office of Ticket Agent Ross, of the Pennsylvania, yesterday.

Passenger business on the Pennsylvania out of this city, is better than it was this month last year. So far the receipts for the month exceed by $700 the receipts for the corresponding month of last year.

Mr. Bob Douglass, the assistant Wabash ticket agent, took a silver German coin, called a "Thaler" from an emigrant this morning in payment for a ticket. It is worth sixty-nine cents and Bob retains it as a pocket piece.

Colonel Church, master of transportation of the Pennsylvania on the southwestern system, says he could load 10,000 cars with grain in the next ten days if he had the cars at his command. All the roads are handicapped in the same manner.

Frank Howey, of Shop Clerk Meegan's office of the Pennsylvania company, has been on the sick list for several days. When he returns to work he will take a clerical position in Master Car Builder Graham's office. He was formerly employed there.

The Pennsylvania people are taking out the iron cross ties in many places which they placed under their track as a test a few months ago. They proved a failure, having no elasticity. The cost of an iron tie is double that of the ordinary oak tie, but it would doubtless last four times as long had it been a success.

"The duties of the switchman," said one of the members of that fraternity to our reporter this morning, "are the most dangerous of any of the men engaged in railroading. We are in constant danger of either losing our lives or meeting with an accident, and yet we receive the poorest pay of any class of railroad men requiring our skill and responsibility. We leave our families in the morning and before the day closes we may be taken to our homes a corpse. But then that is our chosen life, and I must confess, I am getting used to it and seldom think of the dangers."

An old time engineer calls our attention to a paragraph that appeared in one of our railroad items the other day. "You newspaper fellows may be pretty smart," said he, "but you miss it most woefully sometimes when you come to describing the workings of a locomotive. For instance, in speaking of the experiment of running mogul locomotives on vestibule trains you said: 'The drivers are so small that the pistons are compelled to move so swiftly the steam can not follow them, and when a certain speed is reached the engine works against herself.' You evidently hain't up in mechanics, for the pistons would'nt work at all if it were steam." Then he

train, for when we parted from him we had a couple of items on our note book that he had given us. The *Journal* this morning, with its characteristic enterprise, copies our chestnutty item of several days ago and gives it out for news. Now that railroad engineer will be after Mr. Will Cooper.
